

FAMILY TRAVEL PARIS

Paris for Families - Gluten Free

Again, we are changing our format on this page. Instead of creating day by day itineraries, we are providing some of our suggested family focused activities for specific destinations. Once you find the ones that you think will excite your children, we can plan the trips around them. And, of course, this will include our curated GF Food Reports that will help to keep this experience food safe for everyone.

With regard to accommodations, in Paris, as well as in larger towns and cities, Gluten Free Travel-U.S. has relationships with vetted companies that can provide serviced apartments equipped with washing machines and kitchens which are suited to families with younger children. Countrywide, hotels with family or four-person rooms can be hard to find and need booking in advance but we partner with great wholesalers who will do their best to secure these for us.

With advance planning, we can find something for kids in almost every sight in France. In addition to the obvious sights, there are other experiences we can provide: puppet shows, children's theaters, children's cinema, street buskers, illuminated monuments after dark, an abundance of music festivals and so on.

Below you will find a small selection of options Paris (and environs) can offer your family. In addition Gluten Free Travel-U.S. can provide child focused guiding in many of the iconic areas inside and outside the city: Montmartre, Notre Dame, Palace of Versailles, Orsay Museum, Ile de La Cite', St. Severin. Mom and dad do not even have to give up on a wine tasting in Burgundy or Provence - we can arrange a family biking outing through the countryside with a wine
